Neuware - Seminar paper from the year 2006 in the subject English Language and Literature Studies - Linguistics, printed single-sided, grade: 1,0, University of Rostock, course: Proseminar Englishes around the globe, 9 entries in the bibliography, language: English, abstract: 1) Introduction: the terms dialect and Cockney The paper shall explore the question of the English urban dialect Cockney as an influence of the English language, its spread all over the world and its validity nowadays. The term dialect indicates a regionally specific variety of language, that differs from the Standard in phonological, grammatical and lexical regards. A standard form is in every language a defined variety of the language in phonological, grammatical and lexical regards. Beside the English Standard variety there exist a lot of rural and urban dialects. The rural dialects lost their importance in relation to the spread of the Standard, but the urban dialects still play an important role nowadays the same as in the history of the English language, when they emerged during the urbanisation of England. They are language varieties that were built...
