Meeting the Needs of the Future Force: Transforming Air Support for the Unit of Action

By Lee H. Marsh

Biblioscholar Nov 2012, 2012. Taschenbuch. Book Condition: Neu. 246x189x3 mm. This item is printed on demand - Print on Demand Neuware - The Army is in the midst of a significant transformation into the Future Force. The purpose of this transformation is to provide the right kind of forces for the needs of the future. By the year 2010, the current Army organizational structure will be transformed into Units of Employment and Units of Action. The purpose of this monograph was to determine whether the current air support system would meet the needs of the Future Force's Unit of Action. The hypothesis was that the current air support system could meet the needs of the Unit of Action. The analysis in this monograph compared the current air support system to the requirements of the Unit of Action to ascertain a satisfactory level of performance based on the criteria of suitable, feasible and acceptable. In order to compare the current air support system to the Unit of Action requirements, three functional categories were established. These functional categories were battle command, fire support and airspace command and control. These functional categories allowed for an objective comparison of two dissimilar systems. The culmination...
