

Alzheimers Tips You Should Know

By A V Blackman

CreateSpace Independent Publishing Platform. Paperback. Book Condition: New. This item is printed on demand. Paperback. 174 pages. Dimensions: 8.5in. x 5.5in. x 0.4in. An estimated 5.2 million Americans of all ages have Alzheimers disease in 2013. This includes an estimated 5 million people age 65 and older and approximately 200,000 individuals under age 65 who have younger-onset Alzheimers. Alzheimers disease is a type of dementia that causes progressive mental deterioration that can occur in middle or old age. It causes problems with memory, thinking and behavior and the person may have difficulty remembering recent conversations, names or events. They may also have impaired communication, disorientation, confusion, poor judgment, behavior changes and eventually may have difficulty speaking, swallowing and walking. These changes present special challenges for caregivers, families and friends of persons with Alzheimers Disease. Whether you have been caring for someone with Alzheimers disease for many years or if your loved one has recently been diagnosed with the disease or maybe you are a friend or relative of a caregiver then this book will help you. It provides simple, practical tips to help make your life easier. In it you will find tips on: Activities: Whether the person is...
